Beverly Szymesko
Superintendent of Schools

Shannon Desjardins
Secretary Treasurer

January 24, 2022

Dear Parents and Guardians;

Our Electrical Construction Facility has been completed and we are excited for students to begin using it. Tours have now been arranged for students to have an opportunity to tour our “New” Electrical Construction facility at Ste. Rose School as our programming will begin in the second semester on February 7th, 2022. During the tour, students in grades 7 to 12 will have an opportunity to meet and visit our instructor Copeland McQuarrie, tour the facility, look at the tools and learning environment, ask any questions, and participate in a short hands-on activity. The dates and times of the tours are being finalized with each school and classes

Turtle River School Division is pleased to welcome Copeland McQuarrie to the Turtle River team. Mr. McQuarrie is a certified Red Seal Electrician and he is excited to help support the education of electrical studies in our division. Electrical Studies is the latest vocational program added in Turtle River. This Electrical Studies Program will become accredited so that students will achieve their Level 1 Apprenticeship if they complete all of the required components of the program.

Sincerely,

Beverly Szymesko
